

9.204 Responsibilities for establishment of a qualification requirement.

The responsibilities of agency activities that establish *qualification requirements* include the following:

(a) Arranging publicity for the *qualification requirements*. If active competition on anticipated future *qualification requirements* is likely to be fewer than two manufacturers or the *products* of two manufacturers, the activity responsible for establishment of the *qualification requirements must-*

(1) Periodically furnish through the *Governmentwide point of entry (GPE)* a notice seeking additional sources or *products* for qualification unless the *contracting officer* determines that such publication would compromise the national security.

(2) Bear the cost of conducting the specified testing and evaluation (excluding the costs associated with producing the item or establishing the production, quality control, or other system to be tested and evaluated) for a *small business concern* or a product manufactured by a *small business concern* which has met the standards specified for qualification and which could reasonably be expected to compete for a contract for that requirement. However, such costs *may* be borne only if it is determined in accordance with agency procedures that such additional qualified sources or *products* are likely to result in cost savings from increased competition for future requirements sufficient to amortize the costs incurred by the agency within a reasonable period of time, considering the duration and dollar value of anticipated future requirements. A prospective contractor requesting the *United States* to bear testing and evaluation costs *must* certify as to its status as a *small business concern* under Section 3 of the Small Business Act in order to receive further consideration.

(b) Qualifying *products* that meet specification requirements.

(c) Listing manufacturers and suppliers whose *products* are qualified in accordance with agency procedures.

(d) Furnishing QPL's, QML's, or QBL's or the *qualification requirements* themselves to prospective *offerors* and the public upon request (see [9.202\(a\)\(2\)\(i\)](#)).

(e) Clarifying, as necessary, *qualification requirements*.

(f) In appropriate cases, when requested by the *contracting officer*, providing concurrence in a decision not to enforce a *qualification requirement* for a *solicitation*.

(g) Withdrawing or omitting qualification of a listed product, manufacturer or *offeror*, as necessary.

(h) Advising persons furnished any list of *products*, manufacturers or *offerors* meeting a *qualification requirement* and suppliers whose *products* are on any such list that-

(1) The list does not constitute endorsement of the product, manufacturer, or other source by the Government;

(2) The *products* or sources listed have been qualified under the latest applicable

specification;

(3) The list *may* be amended without notice;

(4) The listing of a product or source does not release the supplier from compliance with the specification; and

(5) Use of the list for advertising or publicity is permitted. However, it *must* not be stated or implied that a particular product or source is the only product or source of that type qualified, or that the Government in any way recommends or endorses the *products* or the sources listed.

(i) Reexamining a qualified product or manufacturer when-

(1) The manufacturer has modified its product, or changed the material or the processing sufficiently so that the validity of previous qualification is questionable;

(2) The requirements in the specification have been amended or revised sufficiently to affect the character of the product; or

(3) It is otherwise necessary to determine that the quality of the product is maintained in conformance with the specification.
